June 1, 2019

Murphy tap water now cleared for all household uses *Boil Water Notice expires, water from faucets safe*

MJURPHY (June 1, 2019) On May 31, 2019, the Texas Commission on Environmental Quality (TCEQ) required the City of Murphy public water system (PWS ID 0430042) to issue a Boil Water Notice to inform customers that, due to the presence of contaminants or an interruption in service, water from the system required boiling prior to consumption.

The City of Murphy system has taken the necessary corrective actions to restore adequate pressure, disinfectant levels, and/or bacteriological quality and has provided TCEQ with testing results that indicate that the water no longer requires boiling as of June 1, 2019.

Residents, business owners or other interested individuals with questions on this topic may contact Timothy L. Rogers, Public Services Director at (972) 468-4353, Wade Williams, Public Works Superintendent at (972) 468- 4376, or Scott Murray, Water Quality Technician at (972) 468-4355, or send questions to the above individuals at the following address: 206 N. Murphy Road, Murphy TX 75094.

Customers wishing to contact TCEQ may call 512-239-4691.

###

ABOUT MURPHY -- Murphy is a fast-growing community located in Collin County. The population is approximately 20,010, generally characterized as highly educated with a median household income well above the state average. With more than 80 percent of the land developed, the community is dominated by single-family residences. City planners strive to preserve a family-oriented community with a strong sense of place. Money Magazine has dubbed Murphy as the 27th Best Place to Live in America for small cities, and D Magazine placed Murphy as the fifth best suburb in the 2014 list, where it has consistently ranked in the top 10.
